<b>Description</b>			
EntityFormBase was originally written as a hack until ticket 14082 < <a href="http://code.djangoproject.com/ticket/14082">http://code.djangoproject.com/ticket/14082</a> > was resolved. However, that ticket was closed with the resolution "worksforme". Apparently, this hack is no longer necessary - or the ticket needs to be reopened with more supporting information. If the hack is no longer necessary, it should be removed.

The hack is not necessary. It has been replaced with another hack that is. ;-) See commit 3a134160f8e7e663c5807cd44296f5f3a88b8a36, the commit directly before that, and the discussion in the referenced ticket.
