

## Philo - Bug #135

### Bartleby forms no longer require a key field.

05/10/2011 09:16 PM - Stephen Burrows

<b>Status:</b>	Resolved	<b>Start date:</b>	05/10/2011

<b>Target version:</b>			
<b>Description</b>			
The key field is a holdover from when bartleby forms were expected to be accessed by key in the template context. It isn't really necessary any more - or if it is kept, it should either become a SlugField or be removed from the <code>prepopulated_fields</code> , since having a field prepopulated with incorrect information is extremely confusing.
