

Philo - Feature #20

Default key values for AttributeFields and RelationshipFields

08/12/2010 07:21 PM - Stephen Burrows

Status:	Resolved	Start date:	08/12/2010
Priority:	Normal	Due date:	
Assignee:	Joseph Spiros	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Analogous to normal fields choosing their attr values based on the attr they are set to on the model, it'd be nice and intuitive to have the new proxy fields choose their key values by default as the attr they're set to on the model - though of course an explicit setting of the attrs should also be allowed.
