

## Philo - Feature #22

### Entity fields don't transfer help\_text attribute

09/29/2010 05:16 PM - Stephen Burrows

|   |               |                        |            |
|---|---------------|------------------------|------------|
| <b>Status:</b>  | Closed        | <b>Start date:</b>     | 09/29/2010 |
| <b>Priority:</b>  | Low           | <b>Due date:</b>       |            |
| <b>Assignee:</b>  | Joseph Spiros | <b>% Done:</b>         | 0%         |
| <b>Category:</b>  | Core          | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>  |               |                        |            |
| <b>Description</b>  |               |                        |            |
| Title says it all. Help text would be useful, but it doesn't seem to transfer from the "example model". |               |                        |            |

#### History

- Status changed from New to Feedback

So... this might not be as much of an issue as I thought. Help text can just be put directly onto the AttributeField, which would make transference difficult and possibly not worth it.
